

Corporate Angel Network Teddy Bear Offered At Auction for the First Time !

Lot 698 - Corporate Angel Network Fundraising Teddy Bear

This is a REALLY VALUABLE bear, as every dollar you bid for him goes straight to the Corporate Angel Network, the non-profit group that arranges free air transportation for cancer patients, bone marrow donors, and bone marrow recipients traveling to treatment using the empty seats on corporate jets on over 1,200 flights a year. Thanks to the generous cooperation of 500 of America's top corporations, including 56 of the top 100 in the Fortune 500, Corporate Angel Network has coordinated more than 17,000 flights since its founding in 1981.

This bear is ready to fly, with a "CAN" neck scarf, a zippered pilot jacket, "leather" helmet and, of course, his goggles. This is truly the cutest bear we have in our auction and you REALLY should take him home. Please bid generously so he can be your co-pilot while you are helping this worthy organization.
